Eminent Speaker Series

The Series will provide a unique opportunity for you to hear from the world's leading economists in an open forum. We are honoured that Professor Mary Morgan has agreed to travel from England to be our guest in 2016.

Professor Mary Morgan

Professor Morgan will be visiting Melbourne, Canberra, Hobart, Brisbane, Sydney and Perth during April 2016.

Mary Morgan is Professor of History and Philosophy of Economics at the London School of Economics and Vice President (Publications) at the British Academy. She also holds a part time professorial appointment at the University of Amsterdam and is a visiting fellow at the University of Pennsylvania. Her major area of scholarship is the history of economic and econometric ideas.

Her recent award winning book, *The World in the Model* (Cambridge University Press, 2012), considers modelling as a method of enquiry, the imagining and imaging of economic ideas (to consider the way that images emerge and are developed over time to give form, and greater clarity, to economic thinking), model experiments, the uses of simulations and a range of other issues.
