- Approach
- Preliminary Results
- Q&A

Introduction

- What are we doing?

Motivation

- Why are we doing this?

Theory

- Direct impacts
- Indirect impacts
- Redistributing resources
- Second round impacts

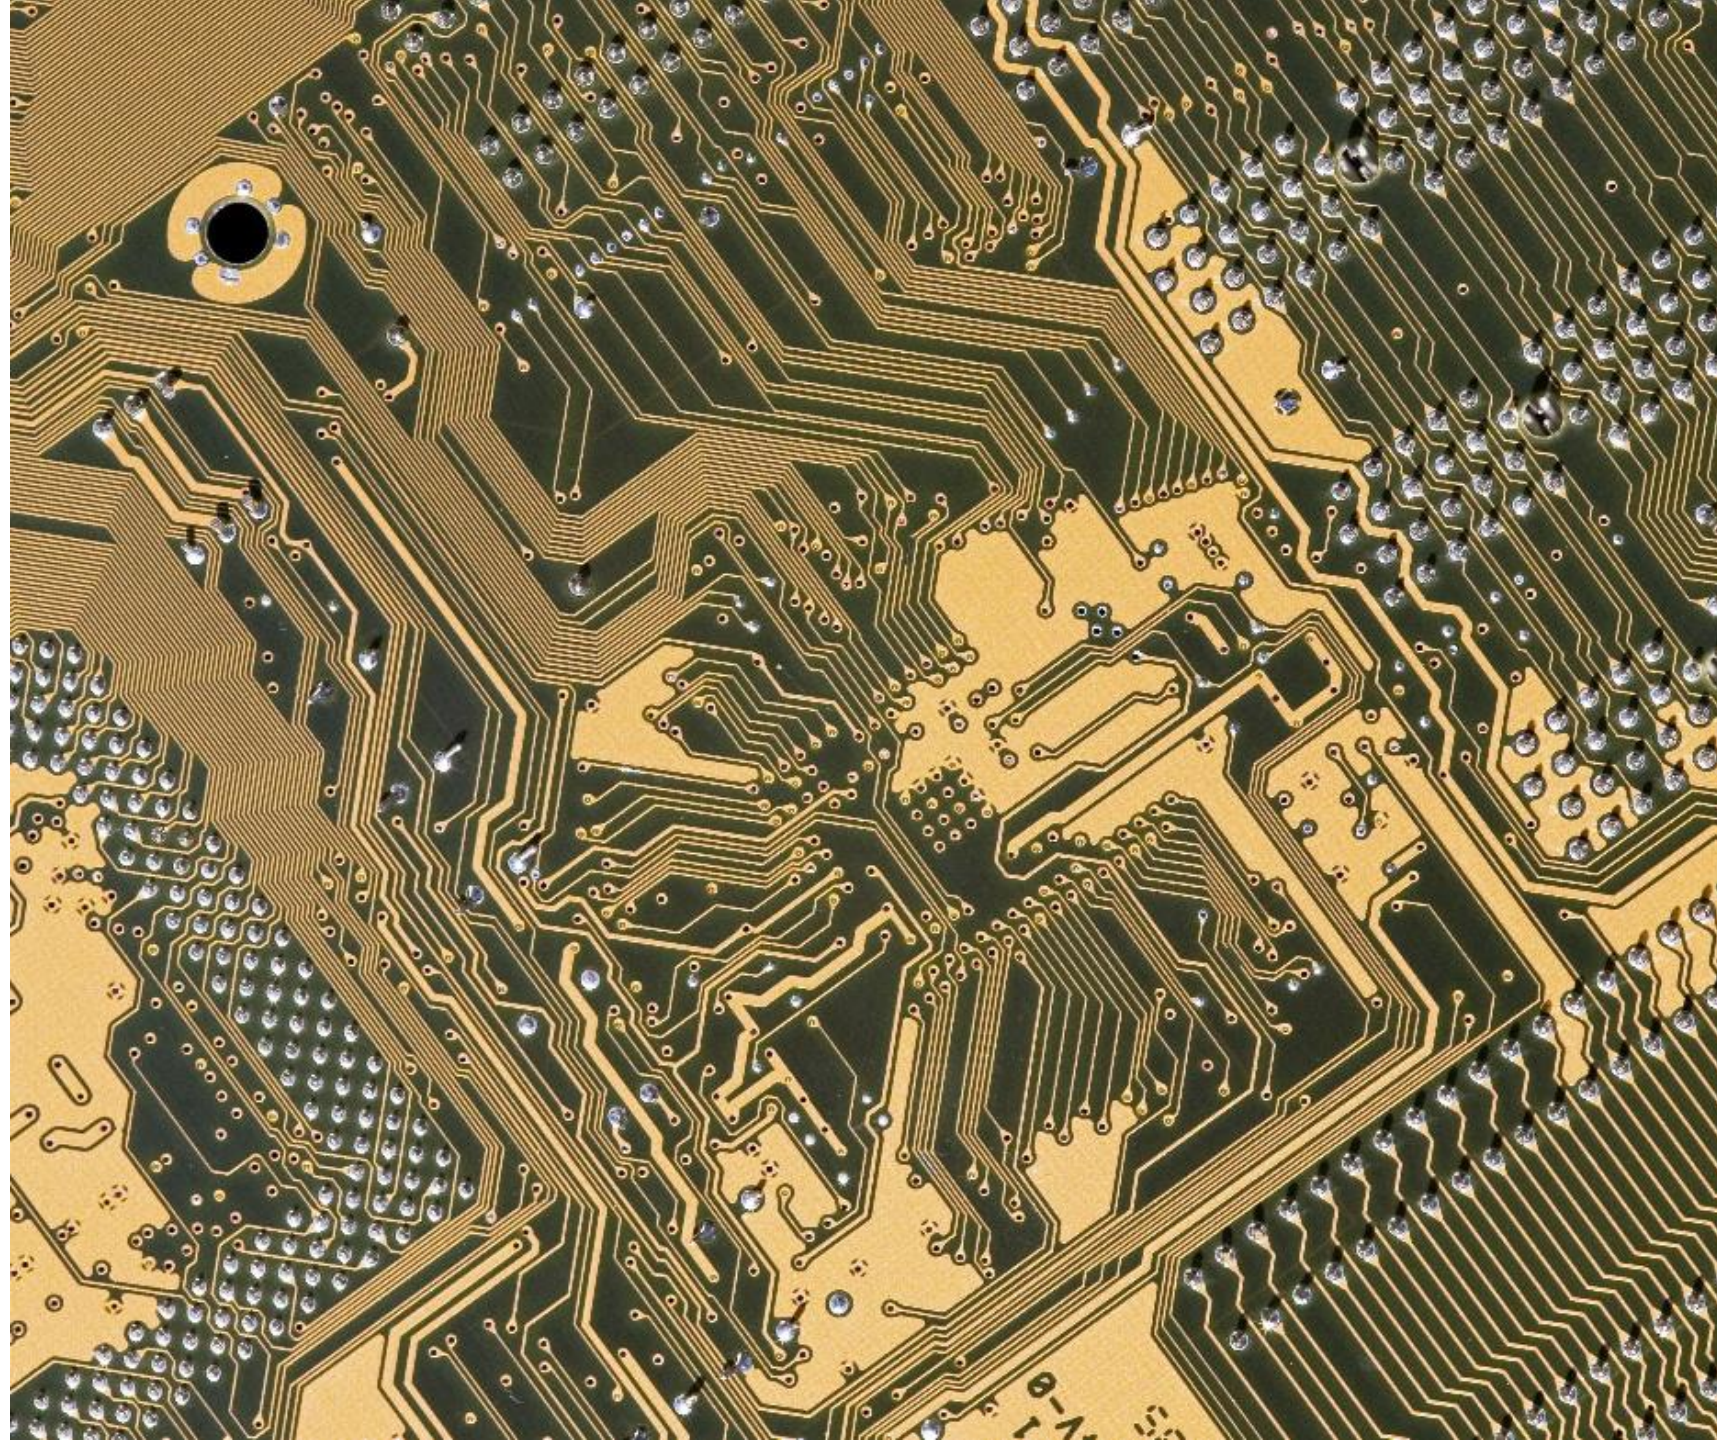

Literature

- Groenewold et al (1987)
- Dixon & Wittwer (2004)
- Dixon & Rimmer (2004)
- Allen Consulting (2013)
- Productivity Commission (2014)
- Productivity Commission (2017)

Method

- DAE-RGEM
- Food processing
- NSW
- 3 year closure period
- GRP
- Employment
- Key ratios

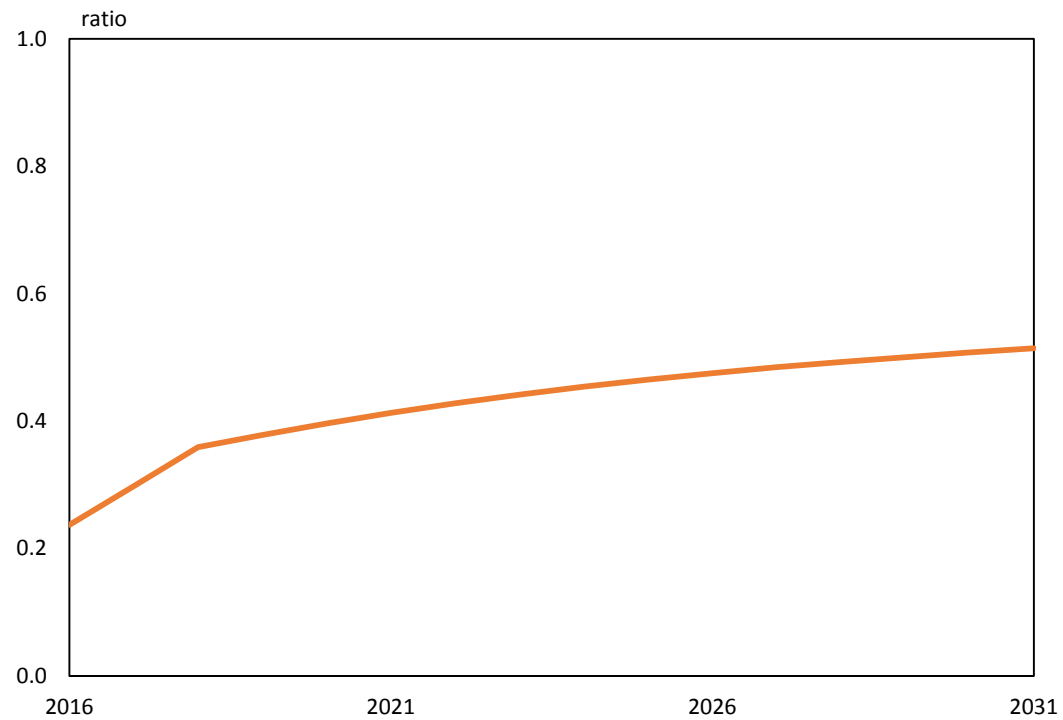

Results

- What have we found?

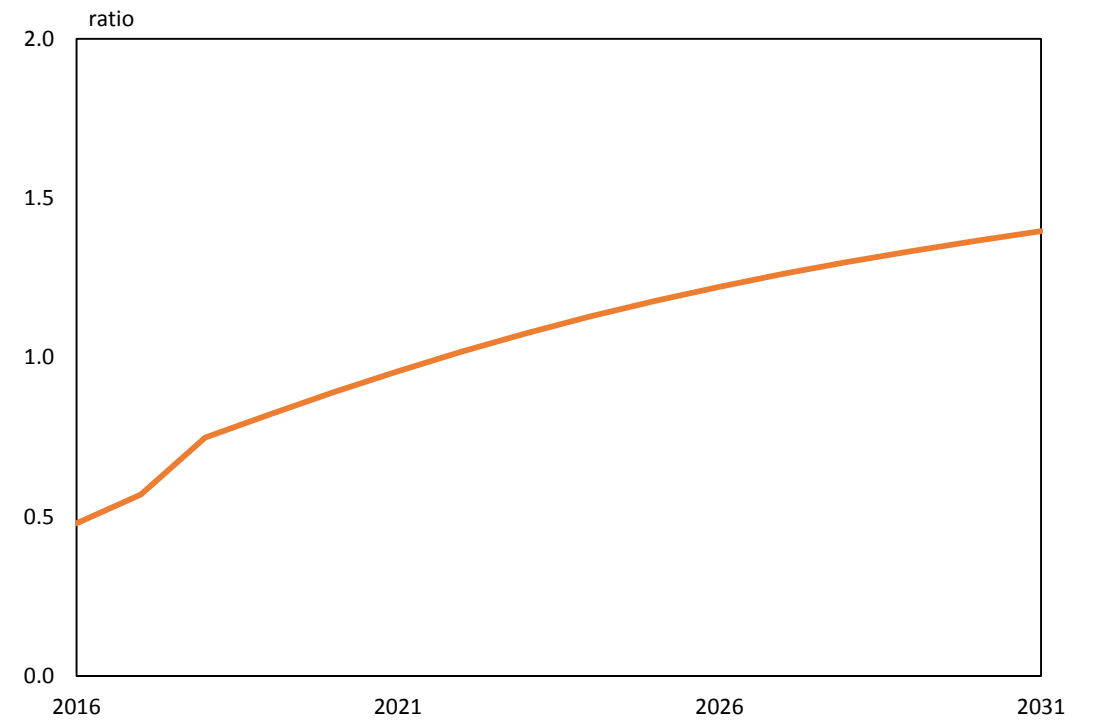

Central scenario

GRP/Output

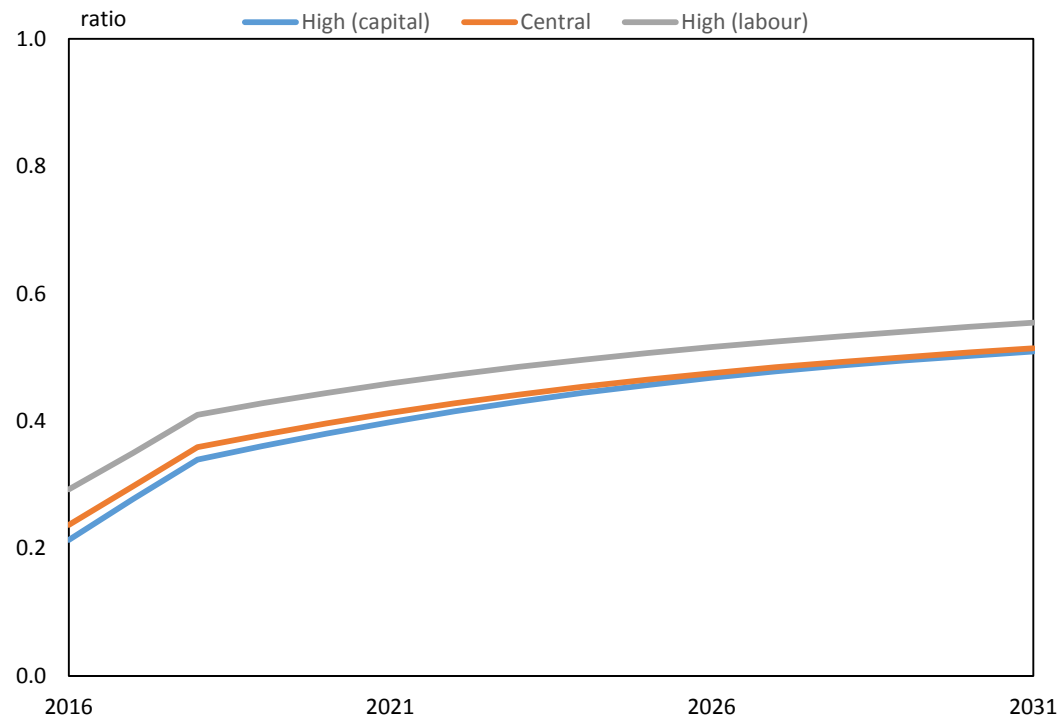

FTE Employment/Output

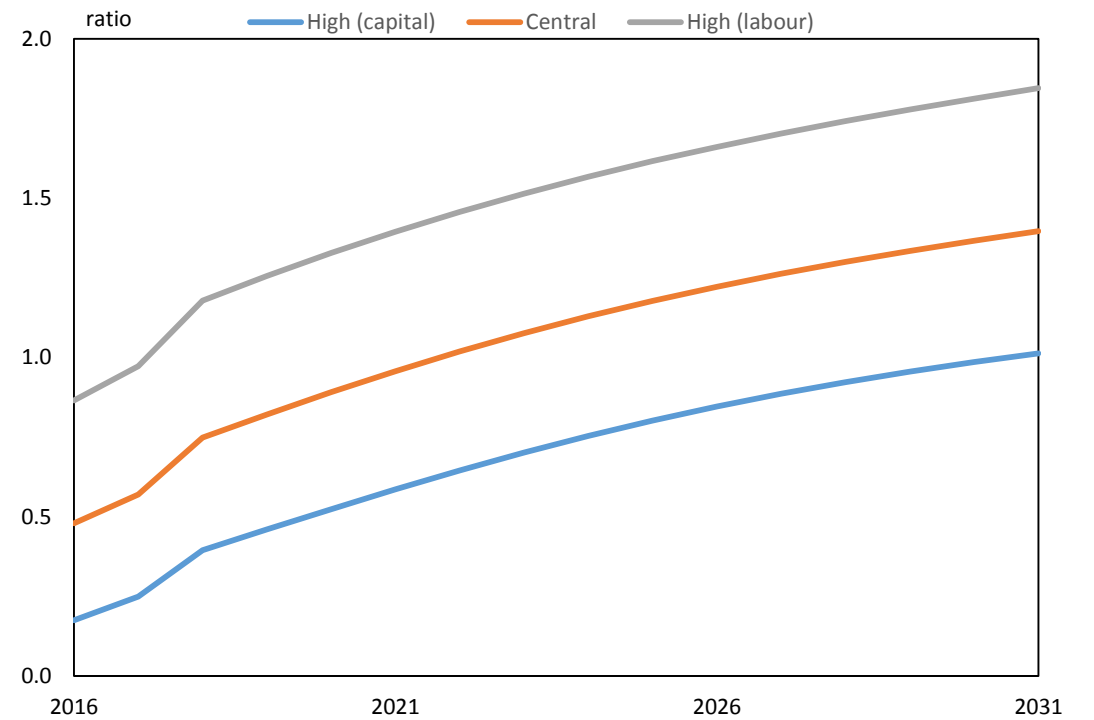

Factor intensity

GRP/Output

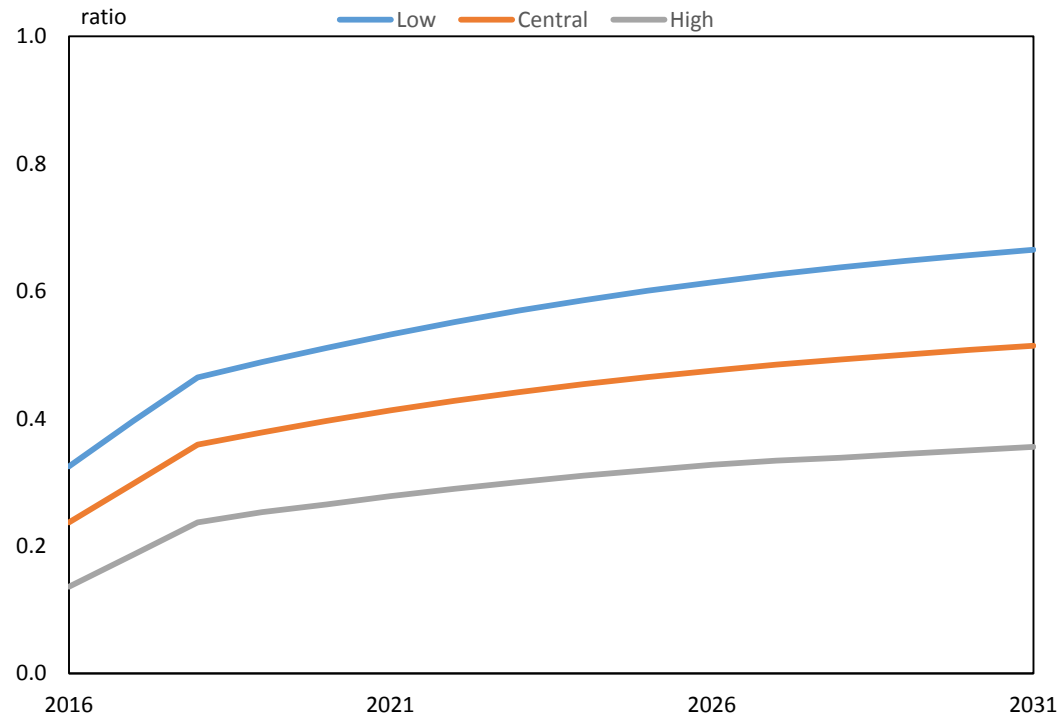

FTE Employment/Output

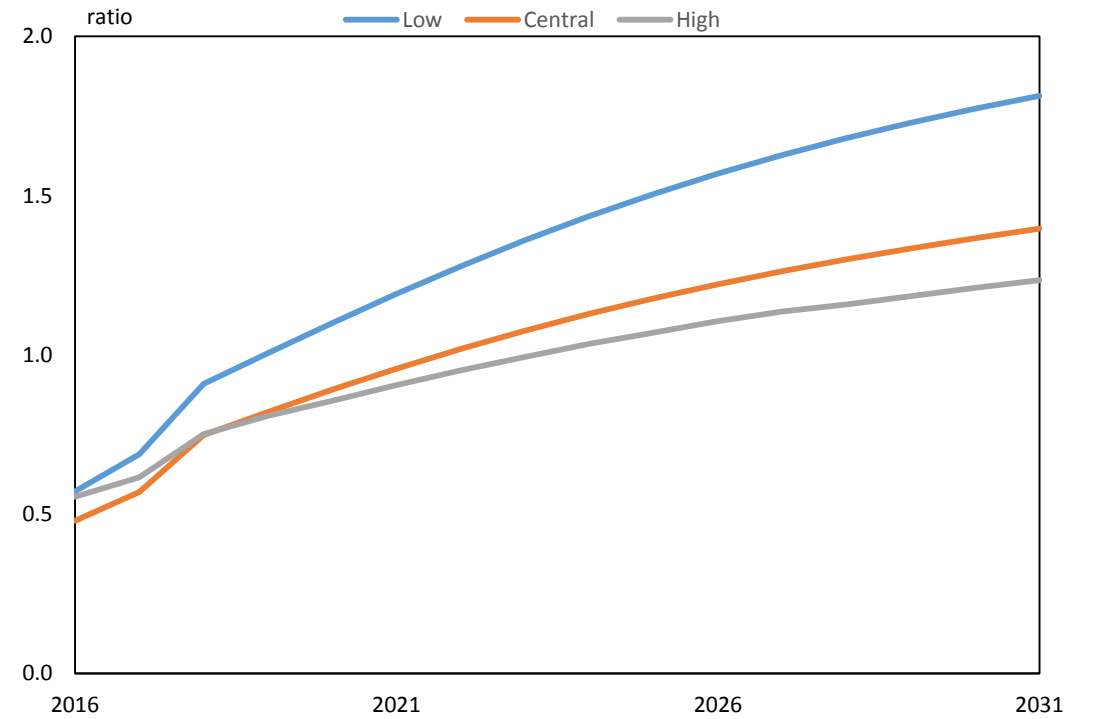

Import penetration

GRP/Output

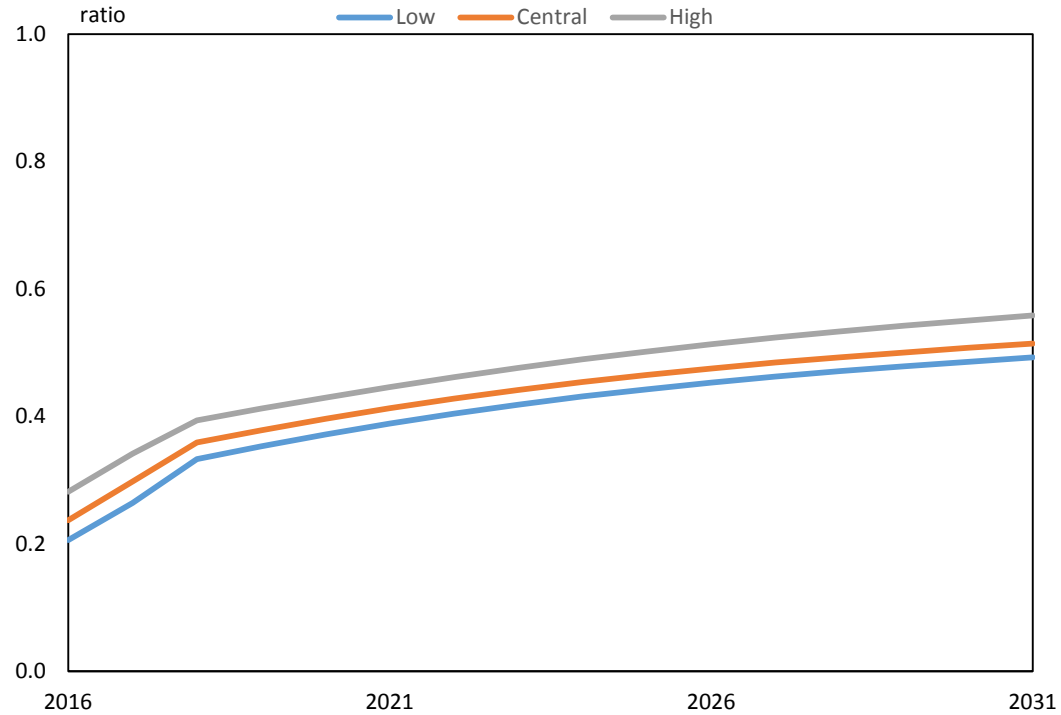

FTE Employment/Output

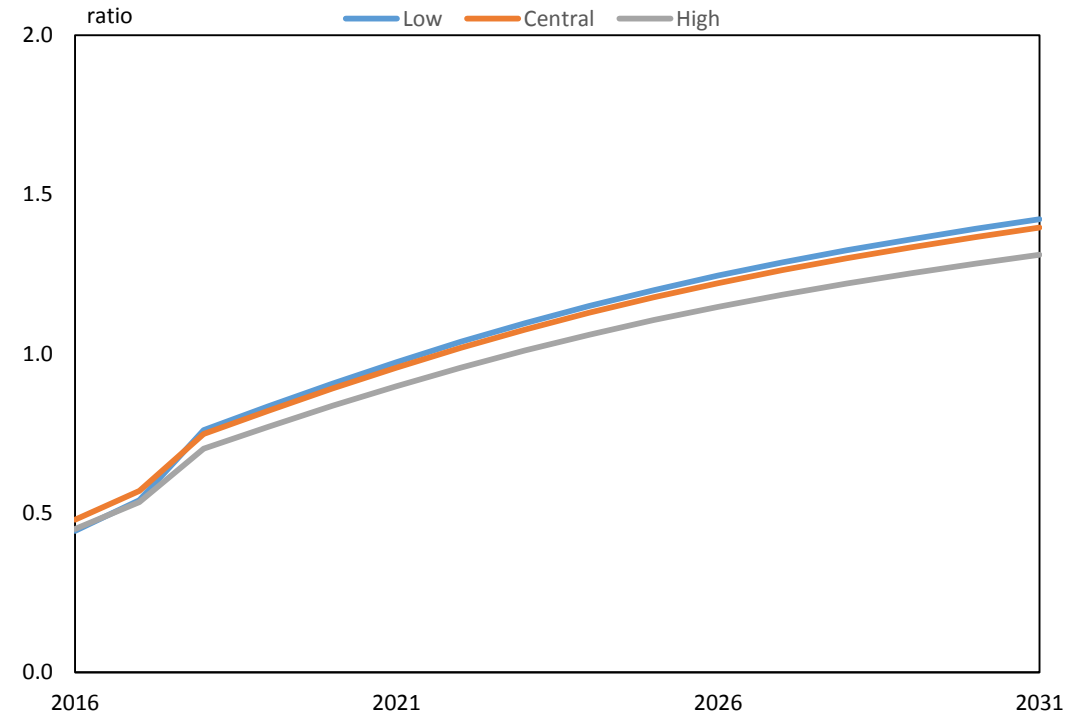

Size of economy/industry

GRP/Output

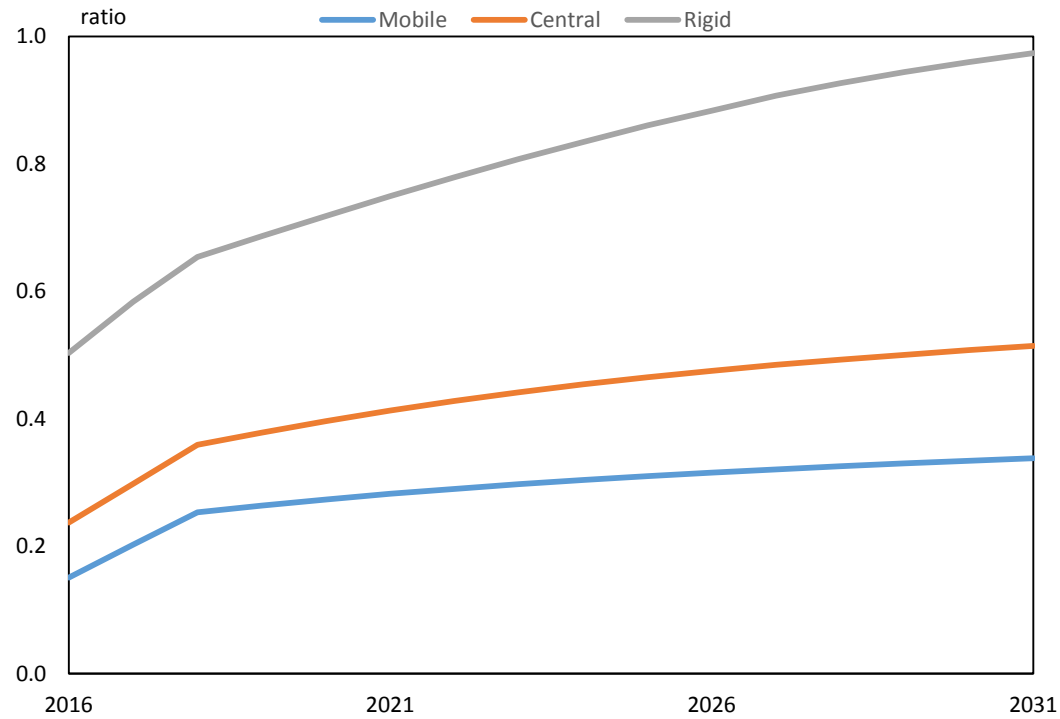

FTE Employment/Output

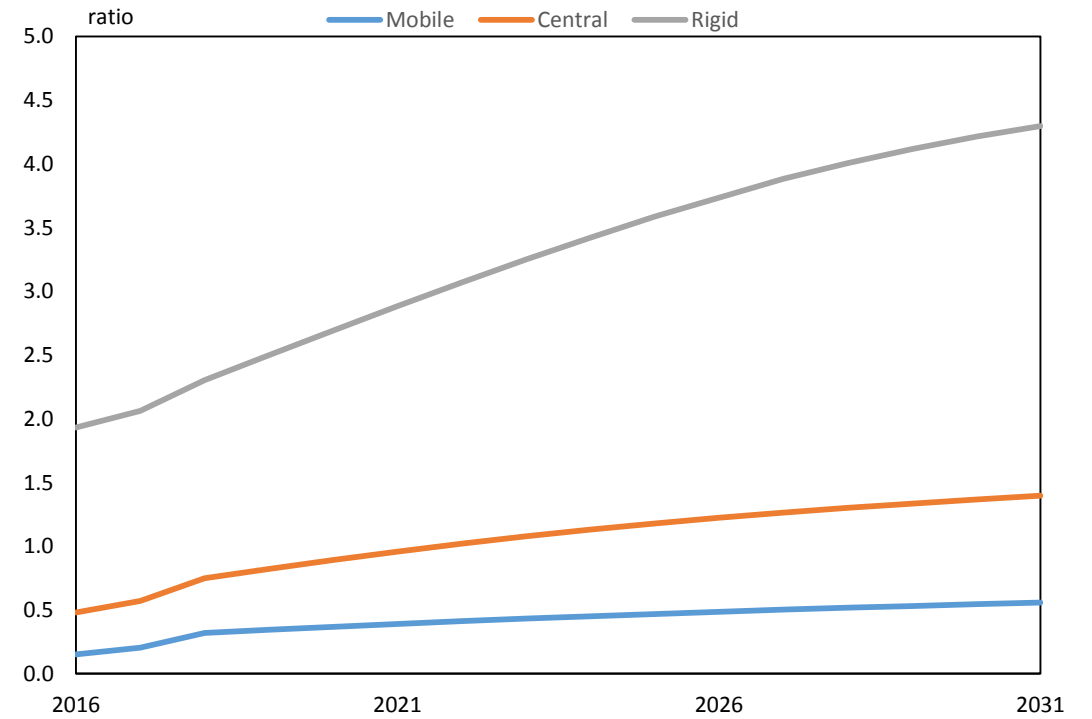

Inter-sector capital mobility

GRP/Output

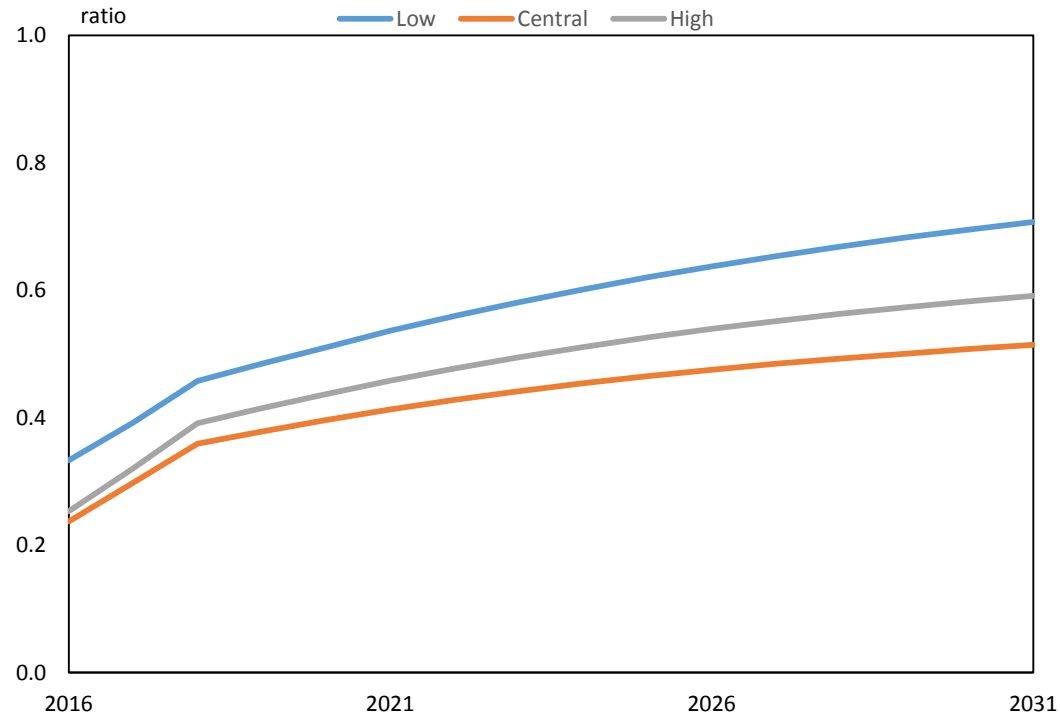

FTE Employment/Output

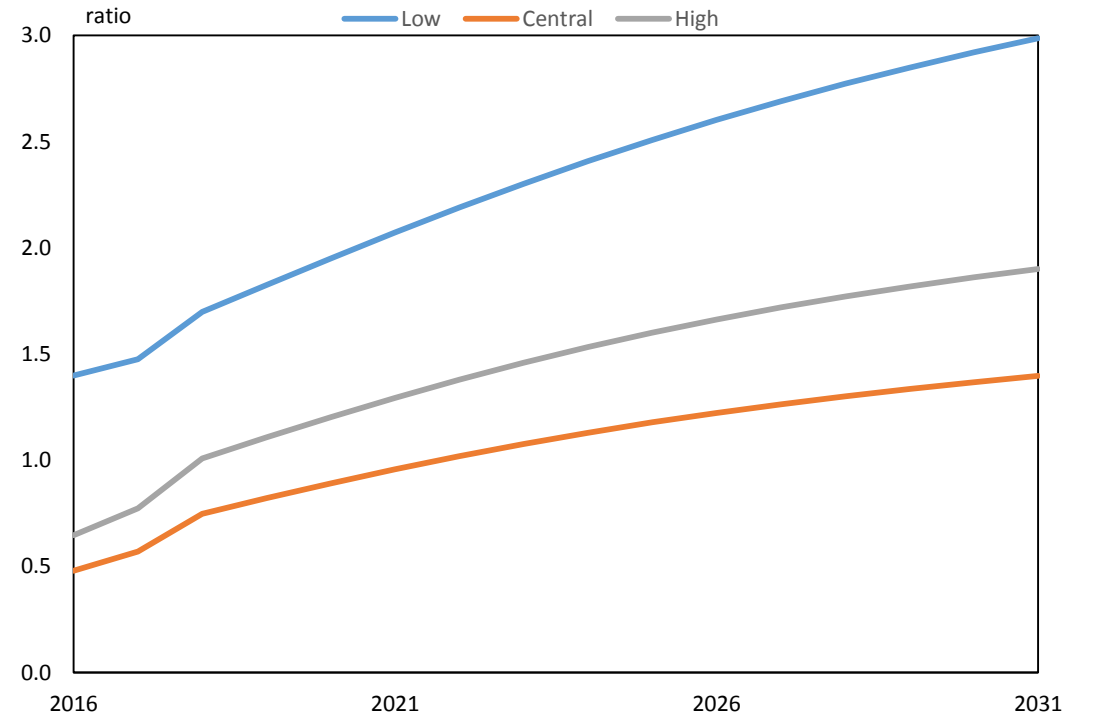

Unemployment

GRP/Output

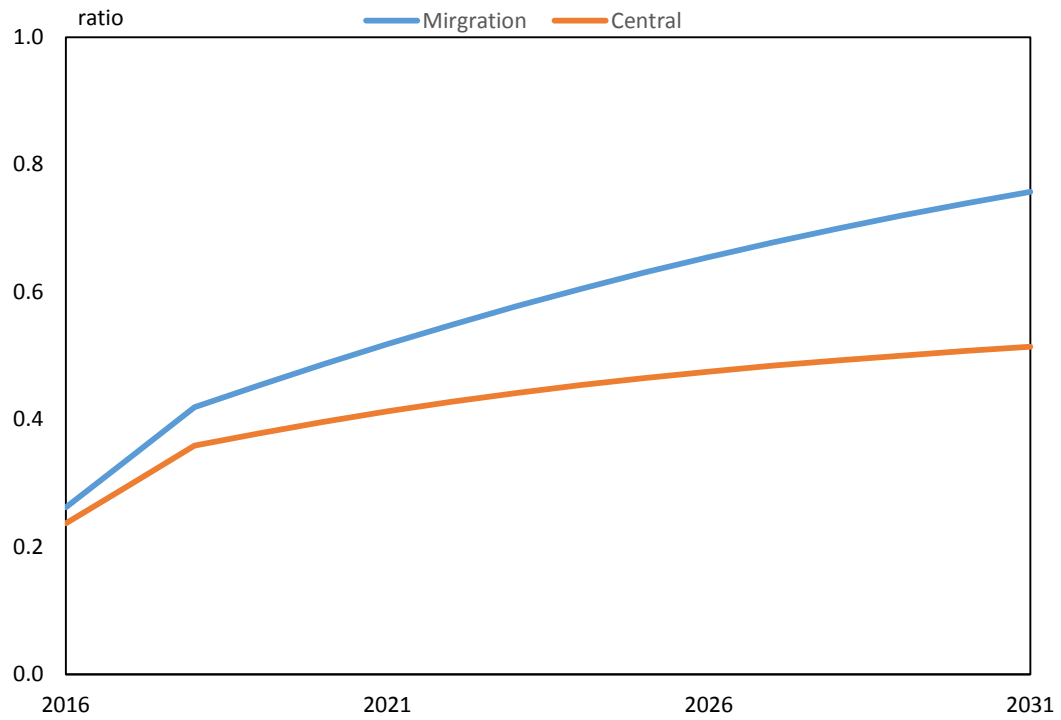

FTE Employment/Output

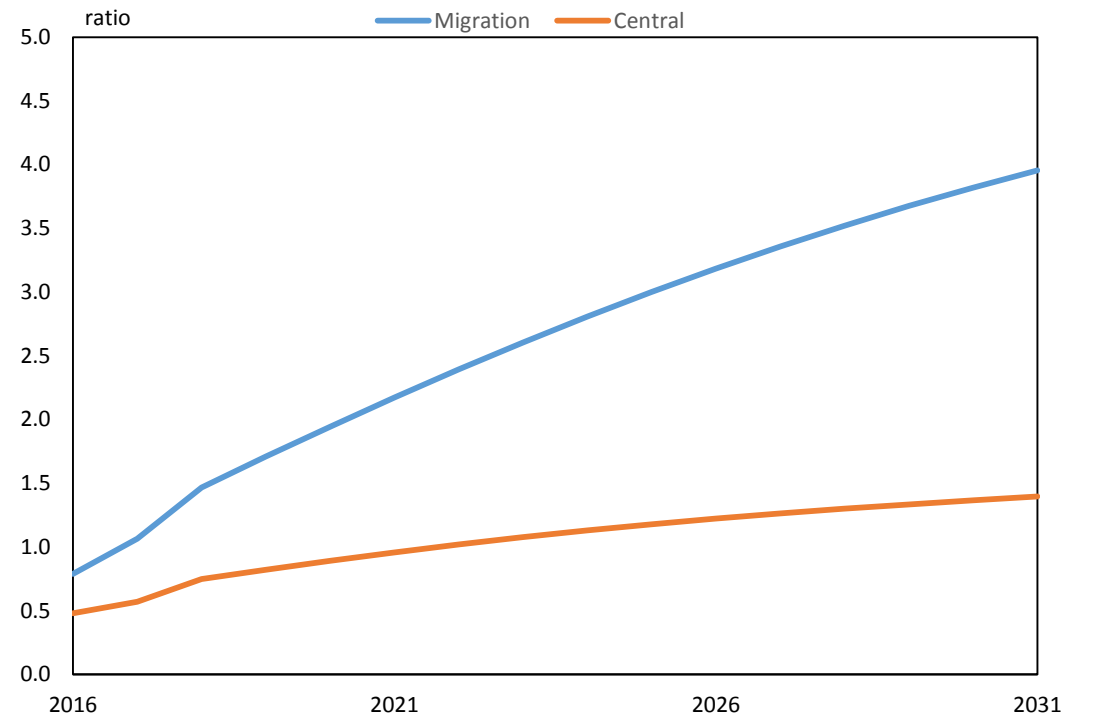

Migration

GRP/Output

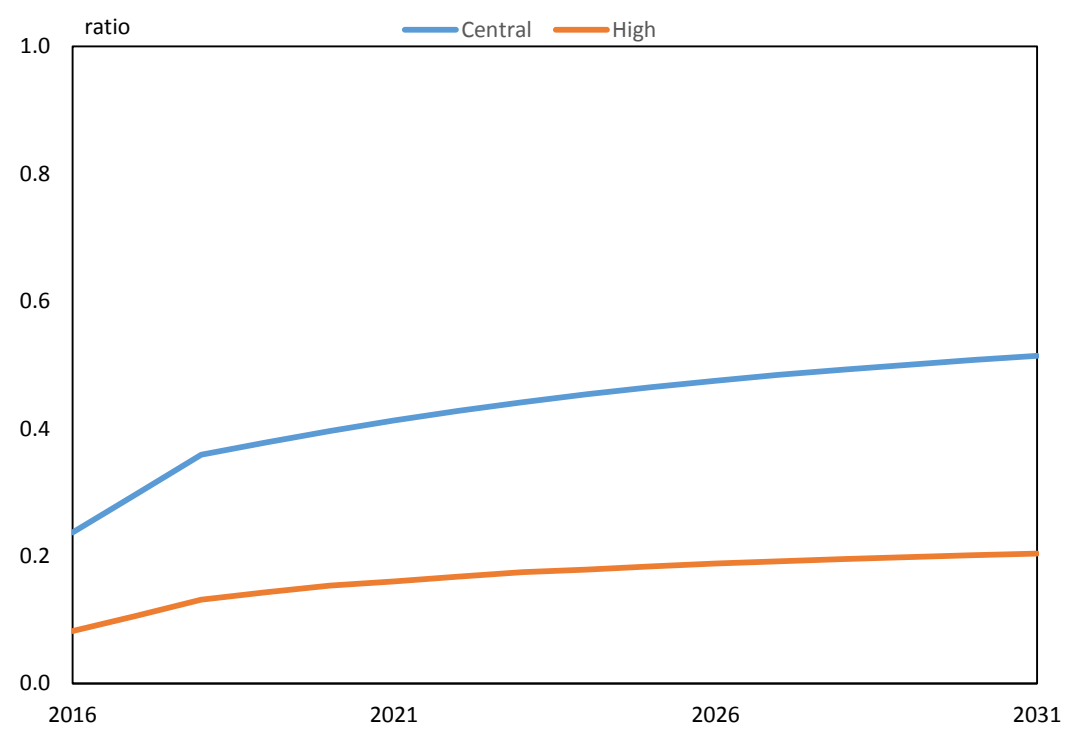

FTE Employment/Output

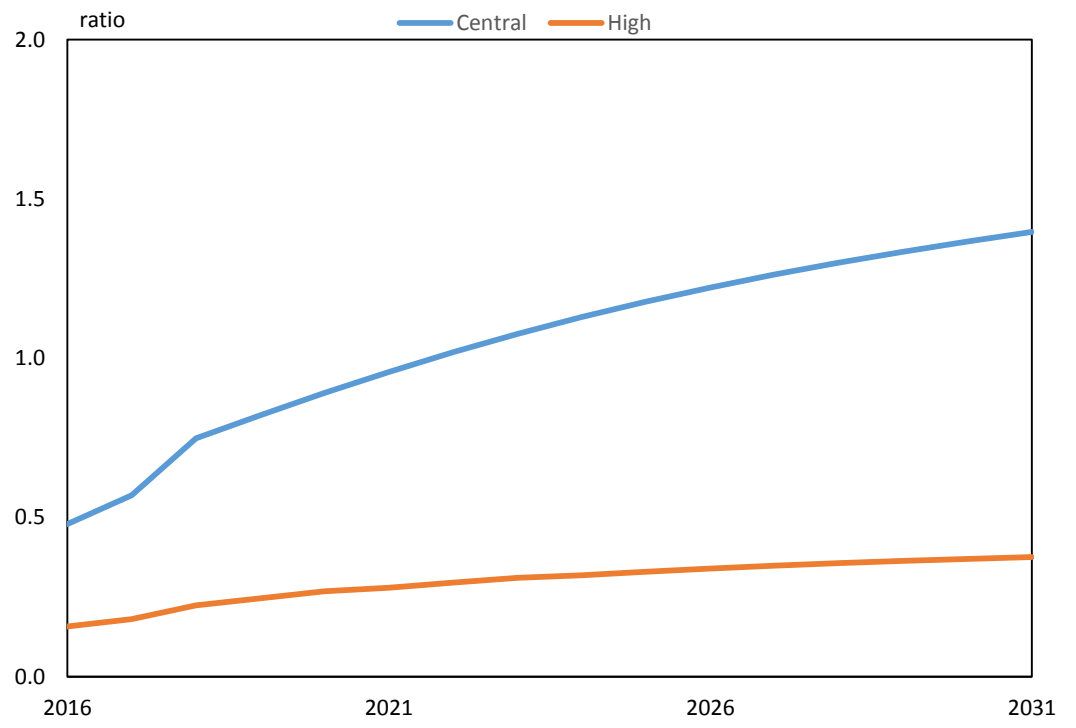

Access to markets

GRP/Output

FTE Employment/Output

Q&A
